ADMINISTRATION REPORT FOR THE YEAR 1916-17.

In framing the Estimates of Receipts and Expenditure for the year ending 31st March 1917, the Budget Committee followed generally the experience of the previous year of war conditions and budgetted for a further year of continuous warfare but on the assumption that scarcity of tonnage and restrictions of trade would not be markedly accentuated during the year 1916-17. The favourable agricultural position and the large accumulation of produce available for export were not such important factors as usual in estimating the receipts as it was necessary, on account of shortage of tonnage, exorbitant freights and restricted markets, to adopt a conservative view and estimate the exports at a figure considerably lower than might reasonably have been expected even in a year of normal production.

2. Under these circumstances no useful deductions can be drawn from comparisons between the Estimated Receipts and actual realisations. The figures appear in the usual detailed form in the accounts.

3. Contrary to expectations the trade returns for the year showed a remarkable activity in Exports, while the volume of Imports was fairly maintained, in consequence of which, accompanied as it was by an increase in Railway traffic of over 50% and considerably larger occupations of land, the actual Revenue for the year greatly exceeded the Estimates. The Revenue Receipts, including temporary Surtax charges of Rs. 17,01,165, amounted to Rs. 1,75,03,759. The actual Expenditure under all heads (excluding Special Expenditure met from Special Receipts) amounted to Rs. 1,56,19,014, including a sum of Rs. 11,00,000 which the Trustees decided to set aside as provision for the heavy depreciation of Fund investments in Government Paper and other Public Securities brought about by the war. The net Surplus on the year's working amounted to Rs. 18,84,745.

4. The Surtax on Pilotage Fees levied during the previous four years in order to sufficiently augment the Fund for replacement of and special repairs to vessels (Vessels' Replacement Fund, Pilotage Account), was discontinued from April 1916. The net accruals to the Fund during 1916-17 (including the sale proceeds of the Motor Launch "May" requisitioned by Government) amounted to Rs. 1,05,814, inclusive of which the balance of the Fund at the end of the year under review stood at Rs. 3,79,856.

5. The expenditure on Capital Works during the year aggregated Rs. 36,62,106, of which Rs. 30,91,169 was expended on the large works—Alexandra Wet Dock, Hughes Dry Dock, Mazagon-Sewri Reclamation and Port Trust Railway. The progress made during the year on these works is referred to later under the head of Capital.

REVENUE.

6. The Revenue statistics which appear in subsequent paragraphs compare favourably with those of the previous year, but the various factors connected with the war have vitiated all statistical comparisons with the trade returns of normal years.

The Revenue, *excluding Special Receipts*, compares with that of former years as follows :—

* Railway siding fees under Sections I and III have been absorbed into the Railway Department earnings from the opening of the Railway in January 1915, except the portion under Section I on account of the Sassoon Dock sidings.

REVENUE—continued.

9. Wharfage Fees on merchandise constitute the principal item of trade revenue and Rs. 57,37,986 was derived from this source at the Docks and Bunders, being a net increase of Rs. 12,80,195 as compared with the corresponding figure for 1915-16. Of the total wharfage fees, Rs. 23,67,715 was on account of Import and Rs. 33,70,271 on account of Export trade. The chief items of increase or decrease are referred to in subsequent paragraphs. Transhipment fees on cargo amounted to Rs. 52,660, an increase of Rs. 6,421 as compared with the year 1915-16.

10. The receipts from Dock Dues were greater by Rs. 82,281 than those of 1915-16 owing to an increase in the number of vessels entering the Docks.

11. The temporary Surtax levied last year on Dock and Bunder wharfage, and certain other items of revenue, was continued during the year under review. The total revenue derived from this source on General Account and Port Department amounted to Rs. 16,95,066.

12. Including the outstandings of the previous year collected in 1916-17, the Revenue proper at the Docks from Expeditionary Traffic connected with War Operations amounted to Rs. 32,03,865 as compared with Rs. 14,59,103 in 1915-16.

13. Ground Rent Receipts increased by Rs. 2,35,428; of which Rs. 62,684 was on account of lease rents and Rs. 1,72,744 from monthly tenancies. The increase in lease rents was mainly due to new leases on the Elphinstone Estate for accommodation of the Rice trade and payment of outstanding bills from the previous year on properties acquired by the G. I. P. Railway. In monthly tenancies the increased revenue was derived chiefly from unexpectedly large military requirements for storage on the Mazagon-Sewri Reclamation and occupations for coal and cotton, and on the Elphinstone Estate for manganese ore. The following figures afford a comparison :—

			Rents realised.		Total. Rs.
			From leaseholds. Rs.	From monthly tenancies. Rs.	
1912-13	...	...	6,48,018	6,00,964	12,48,982
1913-14	...	...	6,58,877	6,29,900	12,88,777
1914-15	...	...	6,54,503	6,53,062	13,07,565

1916-17	...	...	7,27,279	8,72,583	15,99,862

The total area of land let on leasehold at the end of the year was 639,648 square yards.

14. The revenue from the Merewether and Hughes Dry Docks, Section IV, amounted to Rs. 3,65,810 (exclusive of Surtax of Rs. 87,282) as against Rs. 2,65,809 in the previous year, or an increase of Rs. 1,00,001. The gross tonnage dealt with exceeded that of the previous year by 304,559 tons.

15. The traffic of the Bombay Port Trust Railway developed considerably during the year. The actual collections amounted to Rs. 14,94,085 as against Rs. 9,97,050 in the previous year,—an increase of Rs. 4,97,035 or approximately 50 per cent. The traffic earnings collected on account of the G. I. P. and B. B. & C. I. Railways and paid over to them totalled Rs. 1,24,45,960.

16. The receipts under Interest and Miscellaneous, Section V, show an increase of Rs. 43,936. On the Provident Fund balances there was a small increase of Rs. 5,750 in interest on investments due to the yearly growth of the Fund. Interest on the Revenue Reserve Fund showed a decrease of Rs. 6,011 as compared with the previous year owing to withdrawals from the Fund to meet the deficit of 1915-16 and certain special works. The interest on bank deposits amounted to Rs. 1,80,525, an increase of Rs. 44,688 on the previous year; this is a fluctuating item and is dependent on cash balances and the bank rate.

17. The revenue of the Port Department, Section VI, amounted to Rs. 2,45,768 (exclusive of Surtax of Rs. 38,423) as against Rs. 2,40,734 in the previous year, or an increase of Rs. 5,034. The principal item of revenue in this Section is Port Dues on Steam Vessels and Country Craft, under which head there was a decrease of Rs. 5,990 owing to a reduction in the number of vessels entering the port for trade purposes.

18. The Pilotage receipts, including interest on investments of the Vessels' Replacement Fund, totalled Rs. 3,72,656 as against Rs. 3,07,613 earned in 1915-16. As stated in para. 4, the Surtax on Pilotage fees was discontinued with effect from 14th April 1916 and the Surtax collected during the year, amounting to Rs. 6,099, was

chiefly made up of outstandings from the previous year. Pilotage, Transporting and Pilots' Attendance fees realised Rs. 3,42,139; fifty-four and a half per cent. of Pilotage and Attendance fees and half the Transporting fees are divided amongst the Pilots.

REVENUE EXPENDITURE.

Comparison of expenditure with previous year and with Budget.

19. The total expenditure chargeable to Revenue under the several heads of account is compared with the Actuals of 1915-16 and the Budget Estimates for 1916-17 in the following statement:—

Exclusive of expenditure on Pilotage Account, appropriation from Revenue to Securities Depreciation Fund and Special Expenditure met from Special Receipts, the total expenditure shows an increase of Rs. 10,38,492 as compared with the previous year. Of this increase Rs. 4,10,477 is on account of Interest and Sinking Fund payments on further Loans from Government and the public. The Railway Department Expenditure increased by Rs. 2,18,370 owing to further development of traffic and consequent increase of Staff and Maintenance charges. The increased expenditure of Rs. 1,59,038 under Wet Docks is due to the greater volume of work, as reflected by the increased receipts.

DEBT.

Loan of 1916-17.

20. A Debenture Loan of Rs. 25 lakhs having a currency of 20 years and bearing interest at $4\frac{1}{2}$ per cent. per annum was raised in India during the year 1916 at an average rate of Rs. 95-5-1. Of this Loan Rs. 5 lakhs was raised for the New Docks Construction and Rs. 20 lakhs for the Mazagon-Sewri Reclamation and Port Trust Railway. In addition to the above, Government advanced the Trustees a loan of Rs. 5 lakhs bearing interest at $4\frac{1}{2}$ per cent. per annum for the New Docks Construction, and a further loan of Rs. 22 lakhs at the same rate of interest for the Mazagon-Sewri Reclamation and Port Trust Railway; both these loans were for the purpose of expediting the construction of certain works in connection with Military requirements.

The two loans of Rs. 5 lakhs each make up the 12th instalment of the Funds required for the New Docks Construction, and the aggregate loans raised for this work now amount to Rs. 537 $\frac{3}{4}$ lakhs. The average rate at which the whole sum has been raised is Rs. 100-12-9. The loan of Rs. 42 lakhs (Rs. 22 lakhs from Government and Rs. 20 lakhs from the public) makes the 6th instalment of the Funds required for the Mazagon-Sewri Reclamation and Port Trust Railway, and the total Loans raised for these works now aggregate Rs. 317 lakhs. The average rate at which the whole Rs. 317 lakhs have been raised is Rs. 98-13-2. The average rates referred to above are exclusive of Stamp Duty and expenses of raising the Loans.

Total Debt.

21. The total debt of the Board at the close of the year amounted to Rs. 15,30,65,747, of which Rs. 3,28,50,071 is due to Government and Rs. 12,02,15,676 is on account of the Foreshore Securities and Debenture Loans due to the public. Details are given on page 6 of the Accounts.

DEBT—continued.

22. The total expenditure on Capital Account since the constitution of the Trust (pages 3 and 8—15 of the Accounts) is Rs. 15,63,90,036, from which Rs. 11,73,994 (being receipts from sale of old plant, etc., paid to Government in reduction of Debt to 31st March 1914), has to be deducted, leaving Rs. 15,52,16,042. The cost of the old lightship "Colaba," the Kennery and Dolphin Lighthouses, and certain other properties originally made over to the Trustees by Government free of charge, are not included in this amount and it also does not take into account the invested funds and unspent balances of Loans aggregating Rs. 3,07,88,963 as under :—

TRADE AND TRAFFIC STATISTICS.

23. The Customs Returns on the basis of values show the trade of the Port of Bombay during the year as Rs. 201½ crores (£134,500,000). The increase as compared with the previous year, exclusive of Government transactions, was about 41½ crores or approximately 30 per cent. Aggregate Value of Trade of year.

24. The details of the more important items of trade under Imports and Exports handled by the Port Trust are shown in the following statement which gives also the statistics of the four previous years :— Trade Statistics.

TRADE AND TRAFFIC STATISTICS—continued.

An analysis of the above statement shows the combined Import and Export trade in the principal items as below:—

	1912-13.	1913-14.	1914-15.	1915-16.	1916-17
Tons... ..	3,792,000	4,310,000	3,377,000	3,306,000	3,623,000

Number	490,000	404,000	526,000	498,000	1,341,000

The figures for the year under report include 939,000 tons of Government cargo handled in the Docks, of which 539,000 tons was coal.

25. The combined grain traffic at the Docks and Bunders, compared with the previous year, is as under:—

	IMPORTS.		EXPORTS.	
	1915-16. Tons.	1916-17. Tons.	1915-16. Tons.	1916-17. Tons.
Wheat	46,000	22,000	79,000	66,000
Rice	257,000	269,000	92,000	151,000
Other Grains	28,000	29,000	168,000	185,000
Total	331,000	320,000	339,000	402,000

The export trade in Grain (402,000 tons) in the year under report was more than the previous year by 63,000 tons and was 1,000 tons less than the average of the past five years. The increase over the exports of 1915-16 was chiefly due to the increased shipments of rice to the Persian Gulf, Natal and British East Africa.

The import trade in Grain (320,000 tons) showed a decrease of 11,000 tons as compared with the previous year and was 72,800 tons more than the average of the past five years.

26. The export trade in Seeds (513,000 tons) showed an increase of 80,000 tons as compared with the previous year, owing to larger shipments to the United Kingdom, France and Italy.

27. The following statement gives the imports and exports of Cotton as compared with the same items for last year:—

	IMPORTS.		EXPORTS.	
	1915-16. Bales.	1916-17. Bales.	1915-16. Bales.	1916-17. Bales.
Bunders	58,938	53,197	907,185*	754,361*
Docks	415,931	362,871	1,195,153	1,040,678
Total	474,869	416,068	2,102,338	1,795,039

Exports of Cotton showed a further decline of 307,299 bales as compared with the previous year, and the total is 79,777 bales less than the average of the last five years.

28. The exports of Twist and Yarn further increased to the extent of 5,000 bales as compared with the previous year 1915-16, chiefly owing to increased exports to China and Hong Kong.

29. The imports of Piece-goods (343,000 bales and cases) showed an advance of 93,000 bales and cases as compared with the previous year and were below the average of the past five years by 26,200 bales and cases. The advance is mainly due to the fact that local stocks were not replenished to any appreciable extent during the previous year owing to most of the mills in the United Kingdom having been fully employed on war contract work. The stocks in the Docks Warehouses, including Twist and Yarn, aggregated 63,609 bales and cases at 31st March 1917 as compared with 74,069 bales and cases at 31st March 1916.

The exports of Piece-goods aggregated 428,000 bales and cases and constituted a record, being 180,000 more than in the year 1915-16, and 181,400 above the average of the past five years. This remarkable expansion was chiefly due to increased demand from the Persian Gulf, Aden and East Africa.

30. The imports of Sugar (160,000 tons) were 12,000 tons less than the imports of 1915-16. The supplies from Mauritius were taken up for home consumption but the shortage was made good by the importations of Java Sugar.

31. The imports of Iron and Steel (53,000 tons) recorded a further decrease of 31,000 tons as compared with the previous year, or a decrease of 115,400 tons in

* Chiefly comprising cotton exported from Bunders in barges and country craft, but shipped overside at the Docks.

TRADE AND] TRAFFIC STATISTICS—continued.

comparison with the average of the past five years. The decline was due to further restrictions in the supplies from the United Kingdom and America.

32. Imports of Machinery and Railway Materials registered a further decrease of 35,000 tons as compared with the previous year. Of the total of 41,000 tons, 5,000 tons were on account of Railway plant and materials, as against 28,000 tons in 1915-16. The decrease was due to further curtailment of the output from Great Britain. Machinery and Railway materials.

33. The imports of coal at the Bunders aggregated only 47,000 tons, a decrease of 62,000 as compared with 1915-16. There were practically no shipments from the United Kingdom and there was an all round decline in imports from the other coal-producing countries owing to the heavy demands for war purposes, shortage of tonnage and phenomenally high freights. The imports by sea from Calcutta were practically nil, the whole of the Bengal coal traffic being railed into Bombay. Coal.

Compared with the importations of the previous two years, the result is as follows:—

		1914-15.	1915-16.	1916-17.
		Tons.	Tons.	Tons.

The above figures do not include imports at the P. & O., British India, and the two Railway wharves, which are not liable to Port Trust wharfage charges, the wharves being the properties of the Companies.

The complete figures for the entire sea-borne trade are as follows, and are compared with previous years from the year in which the trade in Indian coal began:—

TRADE AND TRAFFIC STATISTICS.—continued.

The exports of coal at the Docks and Bunders further increased by 300,000 tons from 673,000 tons in 1915-16 to 973,000 tons in 1916-17 owing to the heavy requirements of Government for transport purposes and to the shortage of coasting freight which necessitated coal being railed down to Bombay and shipped from the Docks and Bunders instead of, as in the past, being brought in by sea and transhipped.

34. The imports of Kerosene Oil compared with those of the previous year were as follows :—

	<u>39,964,000</u>	<u>45,627,000</u>	<u>+ 5,663,000</u>

The imports of Liquid Fuel show an increase of 3,072,000 gallons as against those of the year 1915-16, being the largest on record.

Fifty-five shiploads of Bulk Kerosene Oil and Liquid Fuel were discharged at the Port during 1916-17 as against forty-two in 1915-16.

The total exports of Kerosene Oil and Liquid Fuel were 6,030,446 gallons, which is 906,492 gallons more than in the previous year.

35. The exports of Manganese Ore amounted to 349,000 tons and were less than those of the previous year by 89,000 tons, chiefly owing to smaller shipments to Great Britain and the United States. In comparison with the average exports for the past five years the figures for the year under report show a decrease of 135,000 tons.

36. The traffic at the Warehouses during 1916-17 compared with that for 1915-16 was as follows :—

Number of Vessels in Docks and at Harbour Walls.

39. Of the vessels which entered the Docks, 97 were over 470 feet in length and 99 between 450 and 470 feet as against 51 and 56 respectively in 1915-16. Particulars of the dimensions of the largest vessels which entered the Port are given in para. 44.

Dimensions of Vessels.

40. Eighty vessels were detained in the stream for periods varying from 12 hours to 6 days for want of accommodation in the Docks. In the case of 46 vessels the detention was for less than 2 days, and 34 vessels were detained from 2 to 6 days.

Detention of Vessels.

41. The entire facilities of the Docks and Railway were placed at the disposal of the Military Authorities during the year under report and a largely increased volume of military traffic was dealt with. In January 1917, a reorganisation of the Embarkation Staff was effected whereby control of the Alexandra Dock was vested in the Embarkation Commandant. Under the new arrangements the Docks Manager and the Railway Manager were gazetted to the Indian Army Reserve of Officers with the rank of Major and were appointed, respectively, Assistant Director, Docks, and Assistant Director, Railway, on the Embarkation Staff.

Reorganisation of Embarkation Staff.

42. The Dry Docks were fully occupied during the year, a noteworthy feature being the number of vessels which carried out extensive repairs. The following figures show the occupation:—

Dry Docks.

	Days.		Days.	
	1915-16.		1916-17.	
Merewether Dry Dock	202½	...	229½	...
Hughes Dry Dock	245½	...	499½*	...

* Represents the combined occupations of both sections of the Hughes Dry Dock.

The number and tonnage of vessels docked compare as follows:—

The largest vessel docked during the year was H.M.S. "Vengeance" in the Hughes Dry Dock, 12,950 gross tonnage, 421'-6" long, 74' beam.

43. The number of vessels engaged in trade that entered the Port during the past six years, as shown in the Customs Returns, has been as follows:—

TRADE AND TRAFFIC STATISTICS.—concluded.

44. The largest vessel that entered the Port was the H.T. "Ceramic," length 655 feet, beam 69 feet, and gross tonnage 18,481 tons. The vessel with the deepest draft leaving the Port was the s.s. "Winifredian" with a draft of 32 feet.

MISCELLANEOUS.

Dock Scale of Rates. 45. A complete revision and rearrangement of the Docks' Scale of Rates was made and brought into effect from 1st April 1917.

Wharfage on packages for H. M.'s Forces. For packages landed or shipped at the Docks and Bunders under the auspices of *bona fide* charitable organisations for the use of His Majesty's Forces, a uniform charge of 1 anna per package was sanctioned by the Trustees in lieu of ordinary Port Trust charges.

Capitation charges on Sick and Wounded. All sick and wounded troops embarked or disembarked from Hospital ships in the Docks, or transferred from one Hospital ship to another, were exempted from the usual capitation charge of Rs. 2 per head.

Occupation of Dock sheds by sick and wounded. The occupation of Dock sheds, or part of sheds, for the embarkation or disembarkation of sick and wounded troops, and for the storage of goods intended for the use of His Majesty's Forces, if landed or shipped under the auspices of *bona fide* charitable organisations, was allowed free of charge.

Dock By-Laws—Carbide of Calcium. In consequence of the completion of the special warehouse for storage of Carbide of Calcium at the Alexandra Dock, the Dock by-laws were amended to allow vessels carrying consignments of Carbide of Calcium to discharge in Dock under certain regulations.

Tail Boards to carts entering Docks. A by-law was framed requiring that such goods as manganese ore, coal, etc., shall only be transported through the Docks in vehicles adequately fitted with side, front, and tail boards, and laying down that vehicles, not so provided, will not be permitted to enter the Docks.

Motor Vehicles. The by-laws relating to the admission of motor vehicles into the Docks were revised and amended to allow of motor cars being admitted into the Prince's and Victoria Docks between sunrise and sunset on the same conditions as were prescribed for the Alexandra Dock, and permitting the admission of motor vehicles into the Alexandra Dock during night hours under certain regulations.

Stores Department.

46. The Stores Department has been worked as an independent Department under the Chief Storekeeper for the past two years. The new Stores Building at Clarke Bunder has been completed and admits of considerably larger stocks being kept on hand so as to facilitate issues. 12,836 Indents were received and 22,838 Receipt Notes issued during the year, as against 13,468 Indents and 26,964 Receipt Notes in 1915-16.

Bunder Department.

Fires. 47. There were 12 fires on the Trustees' Land Estate during the year, 9 of which occurred on the Apollo Reclamation Cotton Green. The losses involved were not serious and were mostly covered by Insurance.

Temporary Cotton Depot at Mazagon. 48. The new depôt was almost fully occupied for cotton storage during the year. The area was laid out in 166 plots and brought in a revenue of Rs. 87,325 in ground rents. The cotton is railed in over the Port Trust Railway to the Depôt whence it is railed to the Docks for shipment as required.

New Grain and Seeds Depot at Mazagon. 49. The new sheds and plinths at the Grain Depôt were in heavy demand throughout the year. At the close of the year the Military authorities occupied practically half of the available accommodation and the remainder was fully utilized by the Trade.

Temporary Coal Depot. 50. During the first half of the year the temporary Cotton Depôt at Mazagon was utilized for coal as well as cotton but, owing to the demand for cotton storage during the latter part of the year, it became necessary to release the whole of the

MISCELLANEOUS.—continued.

Cotton Depôt for its legitimate purpose and a temporary Coal Depôt was laid out East of the Cotton Depôt.

51. The old Metal Market Godowns at Manson Road have been demolished and the area is being laid out for the accommodation of the Rice trade.

Bombay Port Trust Railway.

52. The main system of the Port Trust Railway is now completed and a few sidings were added during the year mainly to meet Military requirements. The traffic developed very considerably, the returns showing an increase of 53 per cent. over the figures of the previous year. The commodities which contributed most largely to this increase were Coal and Grain. In spite of the difficulties of recruiting trained staff the increased volume of traffic was efficiently handled.

The number of wagons received and despatched during the year was as follows :—

	Inward.	Outward.
Foreign	130,452	28,395
Local	29,932	30,449
	160,384	58,844

Details of the Revenue collections are given in para. 15.

During the year 398 troops, prisoners, ambulance and other military special trains were run over the railway.

53. The tonnage of rail-borne merchandise taken direct into the Docks was nearly double that of the previous year, an increase of 444,308 tons—chiefly coal—being registered.

54. Thirty-nine accidents were reported to Government during the year under the provisions of the Indian Railways Act. Six of these involved loss of life (in no case due to the fault of the railway), and twelve involved injuries which did not prove fatal.

Prince's, Victoria and Alexandra Docks.

55. There were 4 fires on board vessels and craft while in the Docks, and 5 fires on the Wharves and Sheds, but no serious damage was caused.

56. The number of accidents to persons in the Docks was 417, of which 38 were fatal, 130 serious and 249 slight, against 295 cases last year, of which 34 were fatal, 93 serious and 168 slight. Of the fatal cases, 7 were caused by falling into holds or lighters, 2 by falling into the Dry Docks, 6 by falling into the Dock Basins, 2 by being run-over by carts or wagons, and 21 were due to other causes.

57. Five accidents to vessels in the Docks occurred during the year but no very serious damage was done. Only in one case was a Port Trust servant held to blame. Accidents to vessels in pilotage charge are referred to in paragraph 66.

58. The efficiency of the Docks Hamallage Department was well maintained in spite of the increasingly heavy demands by the Military Department both at the Docks and at the Cotton and Grain Depôts at Mazagon. The demands for labour steadily increased and the daily average number of coolies engaged during the latter months of the year was over 10,000. The increased facilities afforded by the Port Trust Railway and the Docks motor lorries greatly expedited delivery of the large volume of Government stores landed in the Docks for delivery under the Trustees' contract with Government.

59. Owing to the large number of troops embarked and disembarked in Alexandra Dock, and also to the vast quantities of foodstuffs landed and stored, special precautions were necessary for the thorough cleansing and sanitation of the Docks area, and the ordinary staff was largely supplemented for this purpose. The disposal and destruction of refuse collected at the Docks has always been a difficult and expensive matter, and improvements were carried out during the year. Collection is now effected in the Alexandra Dock by means of a road tractor and wagons, and in the Prince's and Victoria Docks by dust-bin carts—the refuse is railed to Wadala where three large incinerators have been erected for its destruction.

MISCELLANEOUS.—concluded.

Personal
Deposits for
payment
of Docks
Charges.

60. The Personal Deposit system introduced at the beginning of the year has been widely availed of by merchants and has proved very satisfactory. Under this system merchants can open a deposit account at the Docks Office, against which their Dock charges and dues are immediately adjusted and taken to account. This obviates delays and has greatly reduced outstandings and correspondence.

Crime in the
Docks.

61. The return furnished by the Commissioner of Police of cognizable crime in the Docks for the calendar year 1916 gives the following particulars which are compared with the corresponding returns of the two previous years :—

	1914.	1915.	1916.
Persons arrested	2,664	2,656	4,147
Number convicted	2,599	2,576	4,002
Percentage of convictions	97.59	96.99	96.55
Number of cases of thefts... ..	295	480	645
Number of cases in which property was recovered	255	401	495
	Rs.	Rs.	Rs.
Amount of property stolen	8,438	13,336	34,799
Amount of property recovered	5,230	4,802	18,311
Percentage of value of property re- covered	62	36	52.61

Port Department.

Regulation
of Cargo
Boats.

62. Survey certificates were issued to 652 cargo boats during the year against 672 in 1915-16. The amount realised in fees was Rs. 3,029 against an expenditure of Rs. 3,048 in allowances to the staff of the Steam Vessel Survey Department for the performance of this duty.

Inspection
of Lights.

63. During the year, 141 day and 81 night tours of inspection were made by the Special Officer in charge of this work, being an increase of 91 day and 52 night inspections as compared with the previous year. The number of cases in which fines were inflicted for the infringement of the regulations was 51 and the amount of the fines was Rs. 610. The number of light passes granted was 4,308, and 501 lectures were given which were attended by 9,468 tindals and boatmen.

Pilotage Department.

Pilots' Pay.

64. The average total earnings of the pilots during 1916-17 as compared with the three previous years were as follows :—

	Pilotage, Attendance and Transporting Fees. Rs.	Master Pilots. Rs.	Earnings of Pilots per mensem.		
			1st Grade. Rs.	2nd Grade. Rs.	3rd Grade. Rs.
1913-14	2,67,503	1,001	865	751	646
1914-15	2,44,193	1,094	987	882	729
1915-16	2,62,462	1,067	1,050	819	749
1916-17	3,42,140	1,274	1,239	1,047	902

Owing to certain officers of the Pilot Service being temporarily detached on Government service for varying periods during the year, the work of the Pilots on duty was considerably increased and their individual earnings were thereby proportionately enhanced.

At the close of the year the Pilot staff numbered 14 with 2 Master Pilots, or 16 in all.

The average number of Pilots available for duty throughout the year, allowing for those absent on leave or special duty, was 11.

Staff
Uniforms.

65. Distinctive uniforms were designed for the Harbour Master, Dock Masters, Master Pilots, Pilots, Asst. Dock Masters and Berthing Masters in order that these officials may be more easily recognized when on duty by the Shipping in the Port.

Accidents
to Vessels in
Pilotage
Charge.

66. There were five accidents to Vessels while in Port Trust pilotage charge during the year and on one occasion the Pilot was held to be at fault. The damage caused was in no case of a serious nature.

CAPITAL.

67. The aggregate expenditure on Capital Account during the year was Rs. 36,62,106 apportioned over the various Works as follows :—

		Revised Estimates.	Actuals.
		Rs.	Rs.
Section I	Prince's Dock	2,03,050	1,48,687
	Victoria Dock	4,350	3,631
	New Works, Ordinary... ..	6,25,900	4,18,619
II	Alexandra and Hughes Docks Works	13,51,400	14,19,290
III	Mazagon-Sewri Reclamation	22,49,500	16,71,879
		44,34,200	36,62,106

This outlay was met as follows :—

From Loan Balances (Section I)	3,03,219
„ Alexandra and Hughes Docks Loans	14,19,290
„ Mazagon-Sewri Reclamation Loans	16,71,879
Sale proceeds of land transferred to the G. I. P. Railway at Mazagon-Sewri for Harbour Branch Railway	67,467
Special Receipts from Hire of Railway Plant	1,16,730
Sale proceeds of Property	1,967
Appropriation from unspent balance of Revenue Depreciation Account	81,554
	36,62,106

Prince's and Victoria Docks.

68. The work of changing the lighting of sheds and wharves from gas to electricity proceeded slowly owing to the difficulty of obtaining material. The wiring of the Jetty Shed, Prince's Dock, was completed. Electric Lighting.

69. The material for these cranes has been received and their erection will shortly be taken in hand. Four 6-ton Cranes for Manganese Ore Berths.

General Works.

70. The dredger "Silurus" which was completed at a cost of over Rs. 12 lakhs and launched at Renfrew on 10th September, 1915, was kept at moorings on the Clyde pending arrangements being made to bring her out to Bombay. During a fierce gale on 14th October, 1916, the dredger broke adrift from her moorings, stranded and subsequently capsized and sank. Salvage operations are in progress. The vessel was fully insured. Ladder Dredger "Silurus."

71. The central block of the extension of the Administrative Offices was completed during the year. This block was originally intended for record rooms but has temporarily been converted into departmental offices until such time as the west wing of the extension can be taken in hand. Certain alterations were made on the ground floor of the east wing of the old block to provide for the accommodation of the Cash and Loan Departments which were shifted to make room for the Railway Manager's Office. Extension and alteration of Administrative Offices, Ballard Road

72. The lay-out of the Ballard Estate was taken in hand last year and considerable progress was made on the construction of roads and drainage. An 80-ft. road with necessary drains and lighting was constructed during the year along the Ballard Pier Wharf fence and in continuation of the Ballard Road. Two other roadways were constructed,—one along the east of the new Customs building and the other on the extreme east of the estate. Two of the plots had been leased at the end of the year, and buildings (which are to conform to a certain standard type) are in course of construction. Ballard Estate Lay-out.

73. The construction of roads and drains on the Carnac Bunder Reclamation and the lay-out of plots for leasing was completed during the year. In the middle of the reclaimed plot an 80-ft. road having a total length of 1,901 ft. has been constructed. This road has been named "Gamadia Road," after the late Mr. Naoroji Jehangir Gamadia, who was a Trustee of the Port from 1898 to 1916. All the plots on this lay-out have been taken up by the Rice Trade, and godowns constructed thereon. Carnac Bunder Reclamation Lay-out.

74. Owing to increased demands for rice accommodation the old Metal Market godowns on Frere Road have been demolished and the site is being laid out in roads and building plots for the Rice trade. Metal Market Lay-out.

75. The work of reclaiming the land round the Burmah Oil Coy.'s new installation was continued during the year and a considerable portion of roadway, oil pipe trench and fire service-connection was completed. Bulk Oil Installation, Sewri.

CAPITAL.—*continued.**Port Trust Railway.*

76. Construction work proceeded during the year and the major portion of the scheme sanctioned for existing traffic requirements was completed. The total length of permanent track laid up to the end of the year was 74 miles, exclusive of sidings inside the Docks.

Certain alterations to tracks were made to suit traffic requirements and several temporary sidings were laid on the Mazagon-Sewri Reclamation, etc., for Military purposes. The Grain Dépôt sidings were extended as required. The connection to the B. E. S. & T. Co.'s Power Station at Kasara Basin was completed and the siding to the Burma Oil Coy.'s installation at Sewri was also completed and opened for traffic. Other sidings taken in hand were the connection to the new G. I. P. Railway Stores Yard on the Mazagon-Sewri Reclamation and the siding leading to the B. I. S. N. Coy.'s Dockyard in Mazagon.

Further blocks of quarters and latrines for the staff at Wadala were completed during the year and a Wagon Examiner's Office was constructed at Grain Dépôt. Considerable progress was made with the Signalling and Interlocking system, the greater part of which is now nearing completion.

Six new locomotives under order were received during the year, erected in the Trustees' Workshops and handed over to the Railway Department after undergoing boiler tests. Sixty-two "B" class open wagons were converted into covered wagons, six into bolster wagons, four into kutchra wagons and one into an oil tank wagon with a tank capacity of 3,750 gallons.

Mazagon-Sewri Reclamation.

77. Surfacing was continued throughout the year, the moorum for this purpose being obtained departmentally from Anik and through contractors from Pir-Pau.

The Grain Dépôt sheds included in the original programme were completed in 1915-16 and the floors of certain sheds were tar-macadamized during the year. To meet the requirements of the Military Department for further accommodation at the Grain Dépôt, the construction of additional sheds has been taken in hand, the funds to carry out the work being advanced by Government.

Considerable progress was made in the drainage system on the Reclamation and the present sanctioned scheme has now been completed.

Alexandra and Hughes Dry Docks.

78. The expenditure on these Docks during the year amounted to Rs. 14,19,290, making a total of Rs. 5,27,48,706 expended since the commencement of the work in 1904. Ten Transit Sheds were completed at the end of 1915-16. To meet further Military requirements Shed No. 14 and temporary Shed No. 13 on the East Wharf were completed during the year and Shed No. 15 was taken in hand. Additional latrines with septic tanks and urinals were provided where required.

Warehouse "A" was completed during the year and the ferro-concrete galleries and bridges connecting the sheds and warehouses have also been completed. Considerable progress has been made on the Mole Station which is expected to be completed early next year. The Rim Bascule Bridge across the Entrance Lock was well in hand at the end of the year and will shortly be ready for use. A block of 6 sidings 800 ft. long and the echelon tracks on the East Wharf were laid and handed over for traffic purposes in July 1916. The total length of sidings laid in the Dock area is 16½ miles.

One 6-ton cargo crane was erected and portions of others were received but erection is delayed owing to non-receipt of material from England.

The Cash and Audit Offices, which have been handed over to Government and converted into the Alexandra War Hospital, were completed during the year.

GENERAL.

79. The Director, Government Observatory, referring to work done for the Trustees during the year, reports that the Harbour Clock, which has now been working for over 47 years, is in fairly good order. Once in every month during the year the clock is tested independently for its rate; this has been found to be satisfactory. The Castle Time Ball was correctly released automatically at 2 p.m., Indian Standard Time, every week-day in the year, except from the 23rd to the 31st December when

GENERAL.—*continued.*

the clock was cleaned and under repairs. During this period the ball was dropped by hand. The local chronometer is in good order and has given a fairly steady rate. The Docks Clock is in good order. The ball was dropped correctly every week-day of the year at 8 hours 30 minutes, Indian Standard Time, corresponding to 3 a.m. Greenwich Mean Time.

STAFF.

Officers on
Military
Service.

81. Since the outbreak of war fifteen officers on the Trustees' staff have been given special leave to proceed on military service.

Staff sub-
scriptions to
the Indian
War Loan.

In March, 1917, the Trustees formulated a scheme to assist their staff to subscribe to the Indian War Loan. The aggregate amount subscribed by the staff was Rs. 4,24,300.

Attendance
at Dispensary.

The average daily attendance at the Trustees' Dispensary at Prince's Dock was 82.33 against 89.25 in 1915-16 and 83.26 in 1914-15. There were 975 cases of injuries against 1,150 in the previous year. The Medical Officer in charge of this dispensary, who attends to the requirements of the Inferior establishment and those of the Superior Staff drawing under Rs. 300 a month (except the railway staff), reports that 974 cases of injury were treated and 561 sick certificates were granted. The average daily attendance was 82.3. At the Wadala Dispensary for the railway staff, the average attendance was 18.3 per day; 61 cases of accidents were treated and 670 sick certificates were issued. During the calendar year 1916 there were 9 deaths in the Superior and 14 in the Inferior staff as against 15 and 16, respectively, in 1915.

The Trustees are again pleased to record their appreciation of the zeal and efficiency of their officers in all departments during the year.

22nd September, 1917.
